## ISS Expedition Six science experiments on track

**E**xpedition Six science experiments on the International Space Station are continuing with astronauts installing new science data recorders, examining zeolite crystal growth and conducting human life experiments. The crew is performing daily status and maintenance checks on a variety of other science payloads on the Station. Go to <http://www1.msfc.nasa.gov/NEWSROOM/news/releases/2003/03-001.html> to read the latest update on science operations aboard the orbiting laboratory. Space Station science experiments and payload operations are managed by the Payload Operations Center at Marshall.

**Measurement workshop abstract submittals due Jan. 31; forms at <http://space.transportation.com>**

**Tickets at Space Shop, Bldg. 4203, for Jan. 31 basketball game, Huntsville Flight vs. North Charleston at Von Braun Center**

## S&MA seeking reliability and maintainability engineers

**T**he Marshall Center's Safety and Mission Assurance Office is expanding its Reliability and Maintainability Engineering Team to meet the challenges of the Orbital Space Plane Program, Next Generation Launch Technology Programs and Marshall flight payload projects. Lateral reassignment bulletins are open for several engineering positions. To find out more, go to <http://jsearch.usajobs.opm.gov/summary.asp?OPMControl=TU3334> or <http://jsearch.usajobs.opm.gov/summary.asp?OPMControl=TU3336> or call Dianne Miller at 544-6833.
